Setting Up Qt Bridge for Figma

Qt Bridge for Figma is delivered with Qt Design Studio as a developer plugin that you can install to the Desktop version of Figma. To install the plugin, open the Plugin Manager of Figma and press the plus button to create a new plugin. Then choose the *Manifest.json* file that comes with Qt Design Studio.

You can launch the Figma plugin from **Plugins** > **Development** > **Qt Bridge for Figma** in Figma.
